

NAYAN KR BERA

ASPIRING SOFTWARE
DEVELOPER

SUMMARY

Aspiring Software Developer with experience in web development and software programming, expert in JavaScript and API integration. My key achievements include developing a personal portfolio website showcasing my skills at nayankrbera.vercel.app and creating a secure web-based exam portal, Practo, for conducting online exams. Seeking a Software Developer position, where I bring my web development and programming skills to support your mission of delivering innovative software solutions.

PROJECTS

2024

Personal Portfolio Website

- Launched a personal website featuring a comprehensive overview of professional history and skills; improved online presence led to being featured in 2 industry-related publications within six months, enhancing credibility. An web based secure exam portal for conducting online exams.
- Website-<https://nayankrbera.vercel.app/>

02/24- 06/24

Online Exam portal- Practo

- Developed an advanced online exam portal designed to streamline the assessment process for educational institutions. The platform incorporates multiple security features to ensure integrity and confidentiality during online examinations.
- Session Tracking: Monitors user activity to maintain exam integrity.
- Video Monitoring: Real-time video surveillance to deter dishonest behavior.
- Admin-Controlled Exams: Allows admins to assign specific exams to designated students.
- Instant Results: Provides immediate feedback by displaying results after exam completion.

08/23 - 11/23

Scholarly

- Developed a portal connecting students with national and international scholarships based on eligibility criteria.
- Key features include personalized matching, a comprehensive database, and application tracking.
